

Point-of-sale software you will love to use.

All the tools you need to run your retail business, from anywhere.

Works on any device

Vend works on Mac, PC, iPad & Android. All you need to get started is a web browser.

Sell online and offline

Never miss a sale. Vend continues to work even if your internet connection doesn't.

Inventory

Powerful inventory management that simplifies purchase orders, transfers and stock-takes.

Stress free

Our friendly online support is free and there to help whenever you need it.

iPad POS

Completely portable POS with wireless receipt printing, cash drawer and barcode scanning.

Your data is safe

We use the same technology your bank does to keep your data updated and secure.

Customers

Keep track of your customers with flexible organising and reporting tools.

Always at its best

Enjoy regular new features without the hassle and fees of maintenance and upgrades.

Keep your hardware

Vend often works with the barcode scanners, cash drawers and receipt printers you own.

Dashboard

Get an instant snapshot of sales and products across all of your locations.

Xero & Shopify

Vend integrates with Xero online accounting software and Shopify hosted e-commerce.

Loyalty

Keep your customers coming back with customizable loyalty rewards.

@VendHQ solved an urgent need for a multi-lane POS to run a large pop-up clearance sale. Well done on creating fantastic software!

@chris777

Client new to @VendHQ & integration with @Xero "the easiest thing ever, a couple of clicks and all done, invoices pumped straight into Xero!"

@cloudaccountant

Training the staff up on @VendHQ today. Loving being part of the Vend revolution!
